Microsoft Exchange Server Roles	Microsoft Exchange Edge Transport Role.
Microsoft .Net Framework	Microsoft .Net Framework 3.5 SP1 and above.

Downloading
Please refer to the following link on the Exclaimer website:
http://www.exclaimer.com/Download-Center/DownloadForm-AS.aspx.

Installing
Download the 'Anti-spam 1.0' installation file 'setup.exe' and run it. An MSI is available from support by contacting support@exclaimer.com.

Uninstalling
Uninstall can be achieved via the 'setup.exe' or MSI for the currently installed version of 'Anti-spam 1.0' or via 'Add/Remove Programs' in Windows Server 2003 or 'Programs and Features' in Windows Server 2008 & 2012.

The configuration files are located in the following folder and will not be removed as part of the uninstall process:

Operating System	Location
Windows Server 2003 R2 x64	\Documents and Settings\All Users\Application Data\Exclaimer Ltd\Anti-spam
Windows Server 2008 x64 Windows Server 2008 R2 x64 Windows Server 2012 Windows Small Business Server 2008 Windows Small Business Server 2011	\ProgramData\Exclaimer Ltd\Anti-spam

The uninstall process will not lose any of your configuration or settings. However as a backup precaution you may wish to export your configuration.

Export Steps
1. Open the Exclaimer Console
2. Select the 'Exclaimer' node
3. Open the 'Action' menu
4. Select 'Export Configuration…'
5. Select a location and filename for the export
6. Press Save

This will export all your settings including all your sender/recipient lists and licensing data.

Upgrading
Upgrading can be achieved by following the steps above to uninstall the current version and then install the new version. It is recommended to stop the Microsoft Exchange Transport service once Exclaimer Anti-spam has been uninstalled to prevent message delivery without Anti-spam protection. The installation of a new version of Exclaimer Anti-spam will start the Microsoft Exchange Transport service.

New Features:

- Exchange 2013 support.
